

The Trashbot™ 1899

Features

In the modern household, who has time to pick up trash and put it in the trashcan? That's where the Trashbot™ 1899 comes in play. Designed by the ingenious engineering team at Saints Robotics 1899, the Trashbot™ will help you pick up your trash and dump them into the trash bin – at a low price of \$499.99.

Holonomic Drivetrain

While most other robots are hard to drive with their tank drive controls, the Trashbot 1899 makes driving simple! The holonomic drivetrain allows you to move forwards, left, right, and diagonal! The remote control is programmed with video-game like controls so that if you know how to play Halo or any other first-person game, you'll know how to drive the Trashbot™ 1899.

Preset Trash Can Heights

Don't worry about lifting the arm to the wrong height when you dump your trash into the trash can! The Trashbot™ 1899 has four presets so that you will always have your arm at the right height! Set for trash cans of 3, 9, 15, and 21 inches, the Trashbot™ 1899's preset buttons will allow you to lift your Trashbot™'s arm at the push of a button!

No More Loose Wires

Loose wires caught on moving objects when using other robots? No more with the Trashbot™ 1899! The Trashbot 1899's advanced technology keeps you and your house safe! The wires, kept safe with our proprietary technology, will ensure that your household will stay safe!
