

“Fundraising Fundamentals”

~

Modeled off an old fashioned tutorial video, this informative tutorial covers the fundamentals of raising money for your VEX Robotics team. It details reasons as to why robotics teams need to raise money. Reasons including parts, tools, and travel fares for competitions. The video pays specific attention as to ways to fundraise in order to make money. If fundraising isn't enough than the video details the best way to contact sponsors in order to receive money. Sometimes sponsorships are not enough to pay for the expenses of a robotics team. This video also details how to get in contact with government agencies in order to receive grants.
