

After that tournament my robotics coach helped us brainstorm new ideas. We decided to make a Giant claw Bot with a 6-Bar Lift. THAT WORKED WELL! Our next Halloween themed tourney was held at our school. It was some of the most fun I have ever had. We dressed up in costumes and played in a Halloween themed gym. The day of the tournament was a blast. I started to scout the other teams and basically decided who I'd want to be with for the elimination round. I got very scared and nervous quickly about what was going to happen! But it turned out, we were the best team! In the qualification matches we won every single one of our games! We placed 1st and everyone wanted to be aligned with us. Our team choose the Illuminati, the team I wanted. We also got a pretty good 3rd alliance. The elimination rounds got me more nervous because I wanted to be undefeated so badly! And my wish was fulfilled!!! We went undefeated, won the tournament, got the excellence award, and were double qualified for state!
