

Through these experiences, we learned to better understand what it means to be included, valued, and mentored.

Several team members also participate in the business club, DECA. One DECA category is organizing and running an event, which Mary, Crystal, and I undertook. For our DECA initiative, “Mech Savvy”, we decided that it was worthwhile to promote STEM and create an environment of opportunity. We ran a networking and robotics workshop targeting youth to raise awareness.
