

Our Team

This is not your average “girls rule the world” story, because we did not rule the world (until the end, spoilers!). Instead, I am going to tell you a Kristin-Wells-transforms-to-Superwoman story.

Let me first introduce myself. Hi! I’m Sabrina!

I’m in Grade 12, and it’s my first year participating in VEX Robotics. In all honesty, I had absolutely NO previous experience in robotics before joining the team. Therefore, writing the Girl Powered story was the perfect role for me because I can tell you our origin story. However, this story is not starring a single person; it is the journey of a team, a 15 member all girls team, 200G.
