

Emma Watson once, "said, girls should never be afraid to be smart." Girl power means a lot to my team. I am a captain of team 7225C and they all show girl power in a specific way. I am going to explain my team now: Micah: He shows positivity and helps us with anything that needs to be done. Maciah: He is always willing to do anything and is very energetic. Beau: He is very enthusiastic. Shannon: She works very quick witted intelligence on the team and helps with CAD (virtual online building). Mahaylia: she helps Kennedy with the engineering notebook. Kennedy: she is our main Engineering notebook she writes down everyday at practice what we do. Our coach Mrs. Mortenson (Mama Morty) is a main part of girl power. She means a lot to me and the 4 MS&HS teams we have. I'm so glad we have Mrs. Mortenson as our captain because she is very brave and puts a lot of money in what we do I just wanna say thank you for everything. Girl power means a lot to me because it shows that it is possible that girls can

do anything that boys can do including football, basketball, soccer, track, lacrosse, golf, skydiving, etc. In robotics we have many opportunities including driving, programming, building, online challenges, and more. Girl Power to me means to have confidence, freedom, and more. I love telling people about girl power because it shows

everyone's true colors. To be honest every girl should feel important from the richest/poorest and the weakest/strongest. Girl power makes me feel more confident and stronger talking about it because it makes me feel great. I did girl power project last year because I love inspiring young girls to show who they are and not to be anyone else their not. I love reading and watching movies about girl power my favorite movie is brave was directed by Brenda Chapman, Mark Andrews. My favorite girl power book is Hunger games all 4 of them. Michelle Obama inspires me to write about girl power two because she says some amazing things about girl power and speaks out in the crowd when everything is going wrong. Every lady has a voice of their own sometimes it takes time but sometimes it just in there ready to be heard. Remember every girl is special and every one is unique. Every girl is beautiful just the way they are no one should be judged on what they judged. Girls are full of knowledge, skill, smart, funny, and beauty. Power in girls includes self-respect, and self confidence. Be brave, be

strong, and always remember your own self-worth. Always keep your head held high, smile more and more, and no matter what always stay as positive as much as you can no matter what happens. "you are more powerful than you know; you are beautiful just as you are" by Melissa Etheridge. Thank you so much for reading my essay about girl power from team captain of 7225C - Santa Olson.
