

New Season, New Pit- Vex in COVID

The VEX world championship was canceled. However, through VEX's ingenuity, we now have virtual tournaments, preserving the competitiveness and legacy of VEX. This pit evolved to COVID safety standards as such. We have sanitizer, gloves, and Clorox, cleaning between builds, with many other precautionary measures like masks. The pen, metal pieces, and laptop represent the season, with a virtual notebook, explaining adaptation into this year. The Chex Mix also represents a hidden meaning of this season- amazing and disappointing. However, many still enjoy all of them, as we shall.
