

Mr. Leete has done a ton of things for our team and program. He was at every competition last year but could not get to the state championships but zoomed in and gave my team encouragement. He has been there every time we need to learn something and is a sanctuary of knowledge. He has officiated all of the competitions before we went to states. He has also helped our team financially with helping all the new teams get grants and does workshops to learn how to code (which helped our team a lot). Thank you Mr. Leete!!!!!!
