

Construction

Construction is the word explaining the thought, process, hard work, and dedication to all of our products here at Grand Traverse Area Catholic Schools. We work tirelessly at our robots and do not give up until we have done our complete earnest and best work to our robots. We only use the finest manufactured VEX code supplies when using our robots. We use the finest most prestige VEX code IQ blocks software in our work. Here at our School, Saint Elizabeth Ann Seton, we focus on the hard work and dedication of our students.
