

This photo reminds me of when I took STEM in 7th grade. We would store our robots inside it, and we still do! The robot in the middle is the one my partner and I built. (The skittles? That's a bonus to this class. We get them when we help out/ do really well!) I'm calling this picture the cabinet of cool because...well, it's exactly what it sounds like! We don't store only robots in this cabinet though, we store things for STEAM projects, like balsa wood towers! This was one of the first things I saw when I joined this class, so that's why I associate Robotics with this cabinet.
