

An Outlet to Imagination

Curiousness. An outlet is not only a source for power, but also an outlet for a kid to make a robot do whatever they want. VEX is such a big part of kid's lives, to have fun during school. School should not be a place where a kid dreads to go, but a place where they are excited to go to. Outlets are a source of energy, to power the robots and computers. Kids need to learn to code in this day and age. It is such an important skill for our future.
