

### The Millions of Opportunities

There are millions of lights in this one giant tree. Imagine that the tree represents VexRobotics. Each light on that tree is an opportunity, it's a chance, it's an idea of what is possible with VexRobotics. The lights at the bottom of the tree trunk are the easy ideas that everyone has, the basic mentality. Where everyone should strive for are the lights at the top of the tree, the ideas that no other person has had. There is near to no limit with VexRobotics, anything is possible. Only our imagination is our limit and we each day we can break those limits.
