

Title: A Complete Kit

Our team is called the Manoa Green Tigers. Last year, to show team unity, my team members and I all wore tiger headbands. So for me, our robotics kit wasn't complete unless it included our tiger headband. It made me feel connected to my teammates, as well as my school. I still wear it this year, even though we're not all on the same team. It makes me feel proud of the work we did and it inspires me to try hard again this year.
