

This photo exemplifies the joy that VEX robotics inspires. This is a picture of our club's officer meeting, titled "Officer Meetings Through the Clouds" because I was on an island on Puget Sound socially isolating from a family member, but I was still able to participate in my club by virtue of virtual meetings. Our members are an array of dedicated individuals, all bound together by a love of robotics that VEX has inspired in us. Helping others, whether it be girls in stem, our peers, or IQ students, is something that we do joyfully in the name of service.
