

I went with a bird theme inspired by my chickens and seeing a bird feeder outside my school all parts are from tower takeover. I used an orange cube for a feeder the top has a cut out for refilling the food, I used orange because its easier for birds to see and I used a tower to make a bird bath or if you take off the poll it is a chicken waterer. One of the corner score pieces were used to make a perch and two blocks one purple and one green to keep it up, putting the cube and corner piece two inches in the ground to keep it from blowing down in the wind, snow, rain etc. <https://youtu.be/BSm7QAhjWuo>
