

# RISE ABOVE THE EVIL RISERS

By: Ashley Nolte

# *Introduction*

*Once upon a time, Evil Risers were trying to take over the robotics field. They were going to lay bombrisers to destroy the superbots' hideout. The only way these bombrisers can be stopped is they get put in a square of water before the timer runs out. Can the 3 superbots, Mr. Robo, Mrs. Rise, and Dr. Clawsalot, get rid of all the bomb risers before the 1 minute timer runs out?*

Mr. Robo, Mrs. Rise, and Dr. Clawsalot, were hanging out in their robotics field hideout.

They were practicing their tactics for destroying the bombrisers.

Mr. Robo's tactic is to pick up the bombriser in the beam part with its double claw, then put it in the square. He can stack 3 high.

Dr. Clawsalot's tactic is to drive into the bombriser, open its claw, lift it, drive to the water box, then put it in.

Mrs. Rise's tactic is to drive up to the bombriser, on the outside grab, pick it up, drive to the water square, and put it in.

One way to destroy lots of bombrisers is to get 1 in each row, and get a 3-in-a-row. You would destroy 6 bombrisers

If you get the 3-in-a-row AND stack 3 high, you destroy (1 stack) you destroy 38 bombrisers. If you get 2 stacks and the 3-in-a-row you destroy 70 bombs. And 3 bombrisers stacked in a 3-in-a-row destroys 102.

Anyways, they were working on their tactics when...

They got a call from their watchman,  
Mr. Eyeballs.

He said that the Evil Risers were laying  
even more bombrisers.

Oh boy, it's time to see the superbots in  
action.

First they decided that Mr. Robo and  
Mrs. Rise would go first. (you could only  
have two robots on the field at a time) They  
said they would try and get the 3-in-a-row  
with the teal colored bombrisers. (There are  
3 colors Purple, Orange, and Teal. The  
stacks and rows only count if they are all the  
same color.)

The timer is starting.

Ready, Set, GO!

Oh no! Mrs. Rise is going for orange in the first row. Mr. Robo is going for purple in the first row. And they got a teal in the middle!

The timer runs out.

They only destroyed 3 bombrisers!

Next, Dr. Clawsalot and Mrs. Rise are going. They decided Mrs. Rise was going to try and get 2 teal bombrisers in the first row. And Dr. Clawsalot will get the last one. Then they will try and get orange in the middle row.

The timer starts.

Mrs. Rise gets the first teal bomb in.

Dr. Clawsalot gets to one on the other side.

Mrs. Rise gets the middle teal bombriser in.

Dr. Clawsalot gets 2 orange bombrisers in right before the timer runs out.

They destroyed 8 bombrisers!

The superbots only have one more chance to destroy the bombrisers.

Mr. Robo and Dr. Clawsalot are going.

Dr. Clawsalot is going to get the 3-in-a-row with teal, and Mr. Robo is going to try and stack 2 more bombrisers on top

of the one already scored. He will try and do this on 2 scored bombrisers.

On your mark, get set, GO!

Mr. Robo gets the first 2 teal bombs in very quickly. Then Dr. Clawsalot stacks 2 risers on top of the 1 scored bombriser.

Mr. Robo gets the last teal bomb in, and Dr. Clawsalot gets the last stack.

They have 3 seconds left. Dr. Clawsalot bumps an orange bombriser in.

The timer goes off.

They destroyed 71 bombrisers!!

That was their best one yet!

So this is how the superbots destroy the bombrisers.

The Superbots have destroyed the bombrisers. Now they cannot lay any more bombrisers in the superbots's hideout because they are completely defeated. The superbots will celebrate by playing in the pools of water they use to destroy the bombs, so they get to go swimming! (Which is a robot's favorite thing to do.)

*THE END*
