

# Theme It Up: Donut Shop Display Challenge

## For Tipping Point!

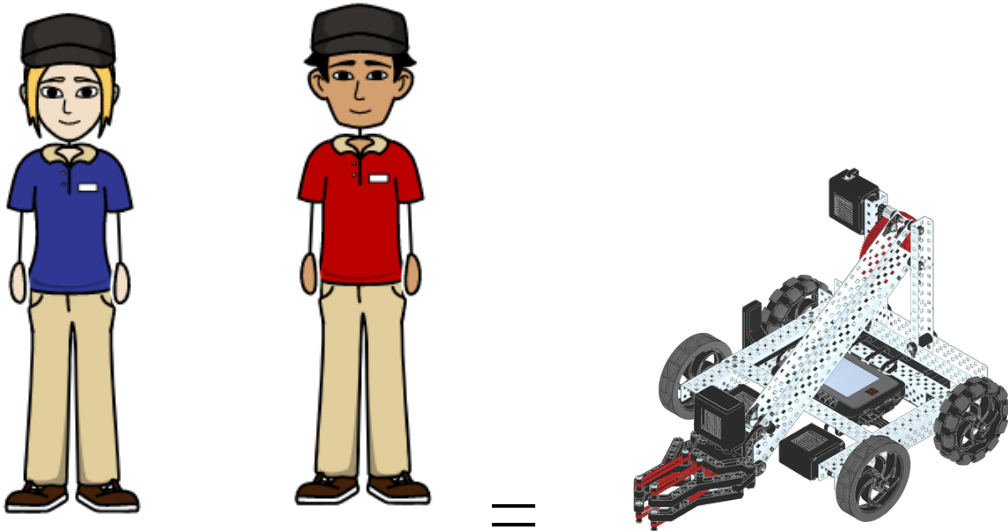

Got your waiters ready, bakers? Then let's jump straight into the new game, Tipping Point! Your goal is to make the most extravagant arrangement of donuts! Using your robots, which will be your waiters in this scenario, you must collect donuts all around the kitchen and place them in plates that can be found around the area. Want a challenge and want to be fancier? Why not try making a donut tree by draping the donuts on the branches that are attached to the plates! Using the color on your alliance-colored plates will help give you and your assistant baker a colored theme, adding a bit of cheerfulness to the kitchen! Using the opponent baker's colors will break the theme, so you won't be able to use it, this also means that putting your colored plate onto the other opposing baker's side will break their theme, and won't do good for you either. To display your donut arrangements, place the plates onto the balance beam trays, but be sure not to knock your or your assistant baker's donut artwork off the display tray! Have your waiters hold the plates and stand on the balance beam to make your artwork even more pleasing. Using the yellow plates will only count if it is on your side of the kitchen. What are you waiting for? Go make those donut arrangements to win!
