

Theme It Up Challenge - Written Report - 84 Blobs

Our Storyboard:

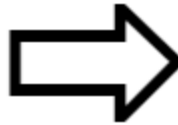

1. Once upon a time, there were two best friends named Avery and Everett. They both grew up together during their childhood. Throughout their childhood, they always shared everything and played together. Their parents were also friends, and together, Avery and Everett made numerous enjoyable memories.

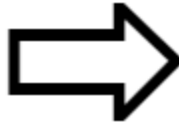

2. During their high school years at royal academy, they had to apply for college. They both applied for Garnet University, in the hope that they would get enrolled and would attend the same college. They both put a lot of effort in their college applications, and were both proud of their hard work and dedication.

3. Unfortunately, they ended up getting accepted into different schools, so they parted ways and rarely talked to one another from then onwards.

4. Many years later, Everett became the leader of the Garnet Empire, and Avery became the leader of the Cobalt Kingdom. Cobalt university was not as prestigious as the University that Everett got enrolled into, Garnet University, so Avery started to become jealous of Everett. This jealousy continued to grow, and soon, Avery declared war. During the war, Avery captured everything.

5. After war was declared, the two once best friends became enemies on the battlefield. Everett didn't want to sacrifice more lives during the war, so she decided to have a battle (the change up game) with Avery.

Our visuals and their descriptions:

This is a picture of some cards. Avery and Everett would play games, like card games, together when they were young.

This is a picture of Avery and Everett's college applications.

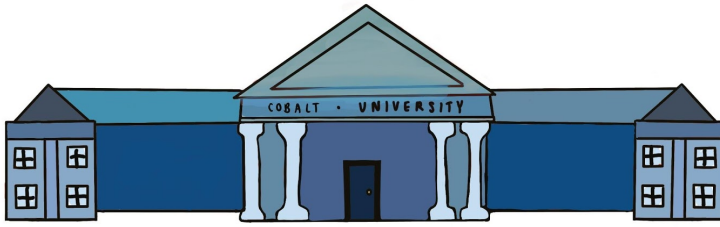

This is a picture of Everett. She is wearing the color red, since that is her favorite color.

This is a picture of Avery. She is wearing the color blue, since that is her favorite color.

This is a picture of Garnett University, Everett's university.

This is a picture of Cobalt University, Everett's university.

Why and how the robots interact with scoring objects and field elements:

The robots are the knights of Avery and Everett's kingdoms. Their goal is to conquer land from the opposing kingdom by using the spheres of conquest. The spheres of conquest are similar to flags, in that they are used to claim land. By putting the spheres in the towers of saeki, the knights can claim land for their kingdoms.

The two knights, Arctic and Sky, are both from Avery's kingdom. The two knights Rose and Ruby are from both Everett's kingdom. The color of Avery's kingdom is blue, so her robots are blue. The color of Everett's kingdom is red, so her robots are red.

In today's change up game each team acts as knight to win glory for their own.

Names of the game/field objects:

The balls are called the spheres of conquest.

The towers on the field are called the towers of saeki.

The robots are the knights. Their names are:

Blue Team Robot #1 Name - Arctic

Blue Team Robot #2 Name - Sky

Red Team Robot #1 Name - Rose

Red Team Robot #2 - Ruby

The game field represents the battlefield in our story.
