

VEX CHALLENGE IQ

Team 2772J, the Metalbenders, is a ground-breaking all-female team that has the passion and the will to take a stance against gender discrimination in the STEM field.

"VEX Robotics has many unique opportunities to express creative designs. It fosters the growth of creative design solutions, which has really helped us learn a lot this year," they said.

"We started out by fundraising, as we needed a lot of money to buy parts. We were able to fundraise a little bit of money from ourselves and from crowdfunding,
