

# **Is Robotics for You?**

Evalee, Jonah and Alexander  
Brookwood Forest Elementary, Mountain Brook Alabama  
Team 3701A

## Description of Poster

If you like these things then you'll love robotics!

## Design Process

Using Procreate on an iPad with Apple Pencil I put down fun topics that I wanted to highlight about robotics. Sketched out the design of the poster. Then I made a layout to make room for pictures. Made a rough draft and then a final poster version full size. Got with my team to take real pictures of them in robotics to match the topics I chose.
