

VEX VRC Poster Challenge Title Page

Title: “Build It”

Team Members: Aiden, Rylan, and Tristan

Team Number: 39313X

Location: Asotin, Washington

Poster Theme: Nothing inspires us to get involved experiencing VEX Robotics like dumping out a pile of supplies and a few tools! Our theme, “BUILD IT”, plays to creative ingenuity in each and every one of us.

Design: The image captured isn’t too different from what our typical workstation looks like! We just spread the components out and took a picture! Using Canva, we were able to insert a title matching VEX’s logo.

Note: Our work is saved and editable if VEX would like to make any additional changes.
