

Robotics, the Best Club

Poster created by: Karma Hudson

Team 141A
Leo, IN

This is a poster created for kids to see and think, "Wow, robotics sure does look fun. I should join it." I felt that I wanted to create this poster because I wanted other kids to know about robotics and realize that there is a whole bunch of things you can do besides math. I created it using the app Canva. I used photos, a drawing, and text to create my message.
