44691X Blue Heat:

Reasons To Do Robotics

Reasons To Join:

- You Can Form A Team of Friends
- You Can Build Amazing Robots
- You Can Test Your Skills
- You Can Win Awesome Awards
- You Can Visit Amazing Places
- You Can Do Amazing Things

About The Experience:

When the time comes to build your bot for competition that can be one of the BEST things in robotics as you can feel the rush of a Million Ideas coming to your head of how you can turn a pile of scrap metal into an Amazing, Complex, Beautiful, and Competitive machine that can get anyone excited when they see it do the best it can.

OUR ROBOT:

Ways We Were INSPIRED:

Inspired To DRIVE UP Our Skills Score:
Driver: 260
Auton: 129
389 Combined

Inspired To WIN MORE Awards
Awards:
Design Award
Tournament Champions
Excellence Awards

VISIT More Places:

Places We've Gone:
Loudonville, Ohio
Akron, Ohio
Pickerington, Ohio
Triway, Ohio
Columbus, Ohio

Places We'll Go:
Brecksville, Ohio
Sandusky, Ohio
Marion, Ohio

About The Competition:

Vex Competitions are some of the most EXCITING and ADRENALINE FUELED events that test everything you can give, they are one of the best challenges. First your code gets tested and this can MAKE OR BREAK A WIN so you have room to grow with your code to make it the best it can be. Then your driving gets tested, this is one of the BEST WAYS TO GET A CHALLENGE, you must come up with strategies to outsmart your opponents, then your actual driving skills must be tested to WIN THE MATCH.

How We Use The Design Process:

Watch Game Reveal

See New Ideas

Read New Rules

Brainstorm Ideas

Prototype Ideas

Test New Parts

COMPETE!!!

If it Fails

Meet The Team:

Garrett Long - Build
Tyler Masoni - Code
Mark Wood - Notebook
Jacob Yost - Driver
Antonio Reyes - Builder
