

# Vindication of Robotics

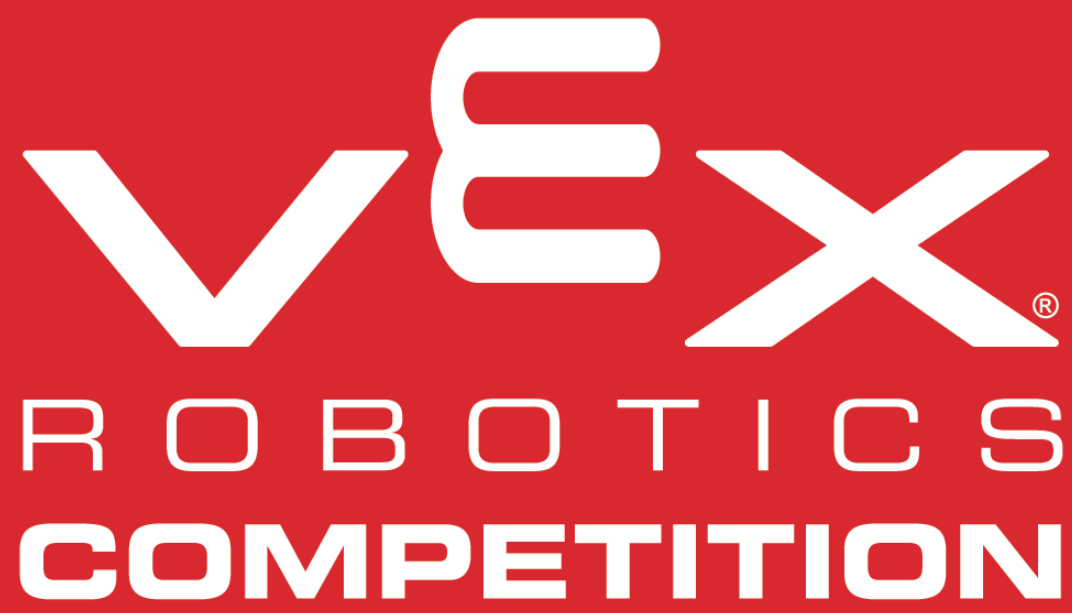

Skyli, Abigail, Katya, Nicholas,  
Brock, Leonardo, Cassidy, Kacy

Team 596A

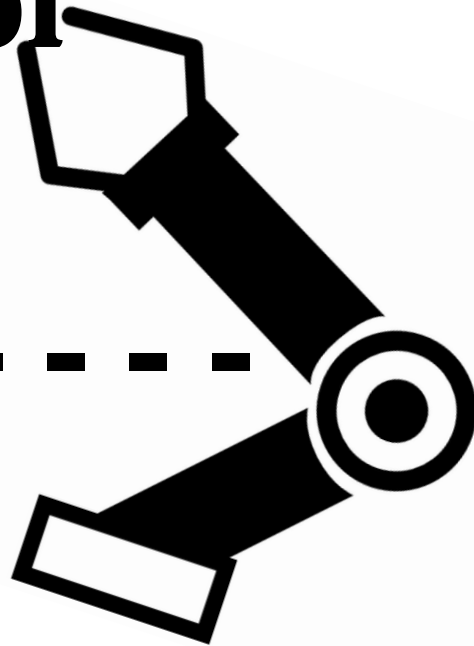

Murrieta Valley High School  
Murrieta, California

We originally planned the design of our poster by brainstorming rough drafts on pieces of paper. After that we used the website [canva.com](https://www.canva.com) to make our design for the poster come to life. We got pictures taken by our team photographer to use on the poster. We tried many different combinations of words and pictures, adding clipart to make it more fun. We think that the design we ended up with is fun to look at and accurately depicts our excitement for robotics.

**Team 569A  
Murrieta  
Valley High  
School**

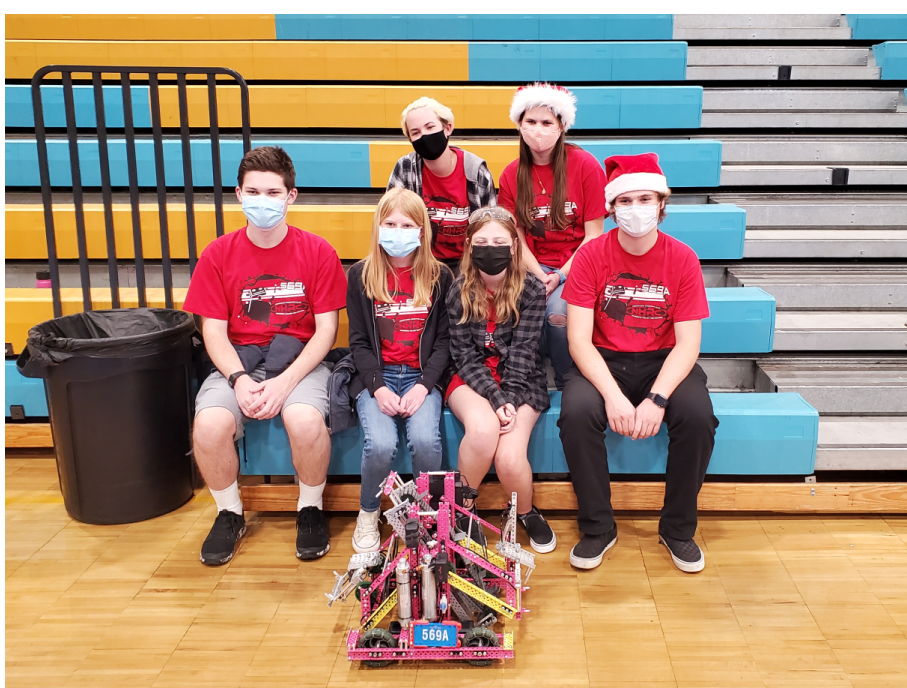

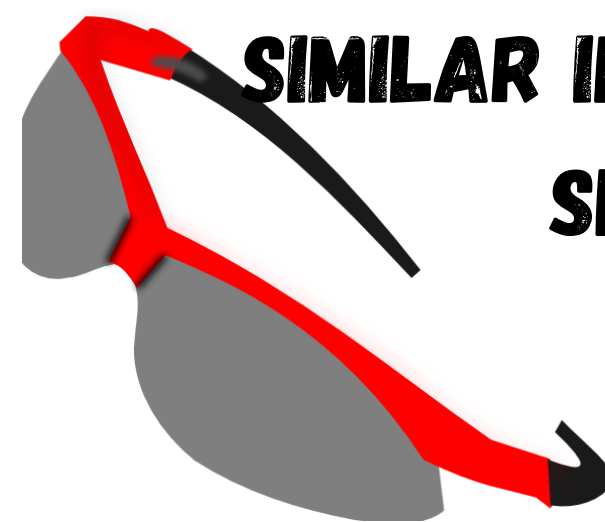

- Learn engineering and how to build things
- Robotics is a great way to work with people and develop team work skills
- Learn how to code and work with computers.

**"I LEARNED NEW SKILLS  
FROM ROBOTICS CLUB  
SUCH AS TEAMWORK  
AND ENGINEERING."  
ABIGAIL**

**"ROBOTICS CLUB IS A FUN  
WAY TO MAKE FRIENDS  
AND INTERACT WITH  
PEOPLE THAT HAVE  
SIMILAR INTERESTS."  
SKYLI**

**"NOT  
ENOUGH  
TORQUE"**
