

Team Rocket's Recruitment Poster

Teammates: Nicholas Arcia, Christopher Garcia, Sebastian Anton

9393 B

Rockway Middle School – Miami, Florida

Our Poster

Our poster consist of many different parts. One of them includes a design of the famous Uncle Sam poster made to better suit the theme of the challenge. Another portion has a cloud like shape held up by springs we made with paper mache. After, we added pictures of our team's robot to help build a better image of what people do in the VEX robotics program. Lastly, we included some of our experiences in VEX robotics to encourage others to partake in VEX, which builds up skills for life.
