

VRC Recruitment Poster

By: Tony, Mike, Fabian, Jayden

Team number: 35706M

Location: North Shore Senior High, Houston TX

Brief Description: The poster's background is of a student working on a vex robot. He is building a vex robot which shows how hands-on the program is and the robots you can build. On the bottom there are some text boxes that describe the robotics program and give benefits to joining the program to encourage people to join. We tried to depict what robotics is and what we do in robotics to encourage people to join.
