

VIQC Elementary School Poster Design Online Challenge '22

Title Page “Working Together Makes Everything Better”

Student Participants

Carlee, Abigail, Eric, Leora, Kylie, Brady and Jordyn

Team 3171 A

Coral Springs, Florida

Description and Design

The title of our poster is **Working Together Makes Everything Better**, especially in VEX IQ. When we think of being a part of VEX IQ we think of driving, STEM, computers, brain power, teamwork, building, technology, coding, virtual reality, engineering, competitions but most importantly **NEW FRIENDS**. We put all of these words in gears because it represents the building of a robotic and how gears are connected to make something work. Just like how on our team we work together to solve different problems. Team 3171A, The Panther Bots, believe in Girl Power and “No Fear Just Gears” our team motto. Our poster has two little robots Sammy from VEX and his new friend Samantha. They represent a team like ours working together. Our poster shows what they both love about VEX IQ and that’s new friends that can help solve puzzles and problems together.

To make our poster we first brainstormed words that we thought of when we think of VEX IQ. We decided to use gears because we use gears to build our robot and they’re part of our team shirt and moto. We then drew and cut out shapes from construction paper and used a marker to outline the shapes and words. We all took turns writing, cutting and gluing.

“Working Together
Makes Everything Better”
