Title "Merry VEXMAS"

Participants: no one comes out in picture but idea was created by Alyssa, Euphoria and Diego

Team Number 8787X

Location El Paso Texas

Description: This poster was created to show how we as a team created a family-like bond which anyone can join. Everyone is welcomed to this amazing community of robotics so you can express your strengths in any way shape or form. The way we created our poster was when we had a little party to celebrate all our success as a team. The tree was set up by our teamwork, skills, and lots of fun in order to spread the holiday cheer. We want to be able to spread these happy special moments with others who are interested in robotics.
