

BELMONT ROBO RAIDERS POSTER

Student: Odin Provost, 9th Grade

Team: 603B

Location: Belmont, New Hampshire, U.S.

BRIEF DESCRIPTION

For my poster I wanted to use the new fonts and team logo my coaches made. I used the primary colors from the game elements and alliances to accent the verbs in each section on the poster. I generated QR Codes for students to scan and learn more about our robotics team and what we do. Everything is on a black background instead of a white one. I used pictures from the last four years.
