

Operation Ultra Kirby (12223B)

VRC High School - More than Just Robots Poster

Information:

Students who participated: Stuart

Team Number: 12223B

Competition: VEX VRC High School

Location of Team: South Australia

Poster Size: A4 300 DPI

About the Process

I love all the tasks to do with VEX Robotics, but I really seem to enjoy doing all the tasks completely unrelated to building or using the robot. So I compiled a list of possible things you could do when you join VEX Robotics. I hope it inspires people that don't like the robotics sides of things to have a go, since there are so many other roles on a team than just building.

(And I have written a Robotics Poem for my Engineering Journal if you're curious)
