# The Design Process

Our poster design, infinite possibilities, shows how much we want to share our love for VEX with the world. “Infinite possibilities” symbolizes how much one can learn, takeaway, and grow as a person from the skills and opportunities presented in the program. We chose a space theme for our poster because we wanted a design that highlights all the possibilities in VEX, yet stills leaves room to show VEX parts such as a robot, notebook, and a disk. Briefly, we created our poster by first voting on a design based on its pros and cons, then sketching, inking, and coloring the design. Below, there are a few pictures that show a few componentes in our design process.

The Pro-con chart, which highlights the good/ unique components and the areas of improvements of our top 3 poster designs.
