Addi- Girl power means to take this personality and to make the best of it. We don't like when we waste our time. We are working on commutative skills with our team and getting more skilled. also, it means to be independent, confident and empowered among young women. Girl empowerment means that if you fail you can always get back up, in the ways of taking breaks and getting work done in time. Girl power means to live life as expected. girl power means to have women not empower guys but to get on the same level. To me i thike the i have a ton of girl power. Every time i hear the song "hear me roar" I think of empowerment and finished tasks. now time for quotes "If you have knowledge, let others light their candles in it." – Margaret Fuller. "Above all, be the heroine of your life. Not the victim." –

"You can complain because roses have thorns, or you can rejoice because thorns have roses." – Ziggy Marley. Girl-only spaces are essential because they provide a safe space for girls to voice their concerns and ideas. By being exposed to peers that are confident, capable, and in other leadership roles, girls are inspired to look at their own capacities in a positive light "Never accept 'because you are a woman' as a reason for doing or not doing anything." "Whatever women do, they must do twice as well as men to be thought half as good. Luckily, this is not difficult." girl power is great when we work together . " You have to be consistent. ... " It's not your job to be likable. ... " Don't let anyone tell you that you can't do something." A flower does not think of competing with the flower next to it. ... " Surround yourself with people and things that inspire you.

Colbie-To me I think girl power means to have power with building and working together. I also think it means having responsibility for others that need help. You can help anyone that needs help or that can't do something by themselves. I also think that boys think that we are jokes but if they got to know us maybe they would think girl power is not just a joke It has a meaning just like bro power. we are here to just like you so don't act like we are less I don't want to hear girl power is less than bro power because it is not just like we are no less than boys so that is what I think it means and so much more.

like we live a good life and have fun with our friends and so much more then a boy comes up to you and then says they are a fake friend and then you are mad at them well don't listen to the people that don't even know you so don't let them bring you down. we are girls we can't let boys make fun of us and let it off our shoulder, we mater.

When I hear the word girl power I think that girls are strong, helpful, powerful, kind, and foraging, but some people think it is weird, stupid, and dumb. But lots of people see the word girl power differently though, in a good way, Boys can think whatever they want to, they can judge us, and they can call us names, but we will always come back stronger, better, and more powerful. lots of girls will give up easily, but lots of girls will not give up too, it's hard to tell if someone is gonna give up easily, but when you see them working hard you will start to know that they will never give up.

"I am woman, hear me roar
in numbers too big to ignore

And I know too much to go back 'a pretend 'cause I've heard it all before
And I've been down there on the floor

No one's ever is gonna keep me there again"- "I am woman" by Helen Reddy This quote is an image of how some girls have to fight for their girl power. Sometimes people believe girls can't do things that boys can do. Ever since 1848 had taken a high in women's rights riots girls have been able to do so many more things than people think girls could do. Therefore, girls can do anything that boys can do, girls are strong, powerful, kind, helpful, educated, positive, hardworking, and capable. -Grace Calhoun

Emily- to me girl power means working together and trying hard to do our best. Girls can do anything they want, boys can't just do robotics girls can to. When girls try to do stuff boys always think that they can do everything better than girls. Some of the time when boys work together they mess around and when girls work together they stay focused and work hard. Girls are powerful and they try there best while working. some boys are crazy, and so are some girls but most girls work well together they don't try to take over stuff they work together on the other hand boys sometimes try to take over. girls should be able to reach their full potential as human beings without being held back by inequalities, discrimination or poverty. Girl power is a slogan that encourages and celebrates girls' empowerment, independence, confidence, and strength. girl power is when girls work hard and are confident about what they're doing. girl power is really important in the world because if girl power wasn't a thin boys would try to take over.
