West Vancouver Secondary School, 1750 Mathers Ave, West  
Vancouver, BC V7V 2G7

The first step I took to create this poster was to think about what areas I have improved and what skills I have gained after joining robotics. Then I jot down all my ideas and chose the top 7 points that I think everybody else would also benefit from as a student or a team member by joining robotics. The top 7 advantages of joining robotics that I thought of include how students can develop themselves and how being a part of robotics will benefit them in the future.

I created this poster using an app called Canva. On a blank document, I added images and text and applied the text with matching fonts and colours to design my recruitment poster. Then I looked up the VEX Robotics logo and REC Foundations online and added them to my poster. Lastly, I added a link to the website of VEX Robotics for those who are interested in finding out more about VEX robotics and are looking for more information.
