

Join VRC Today!!!

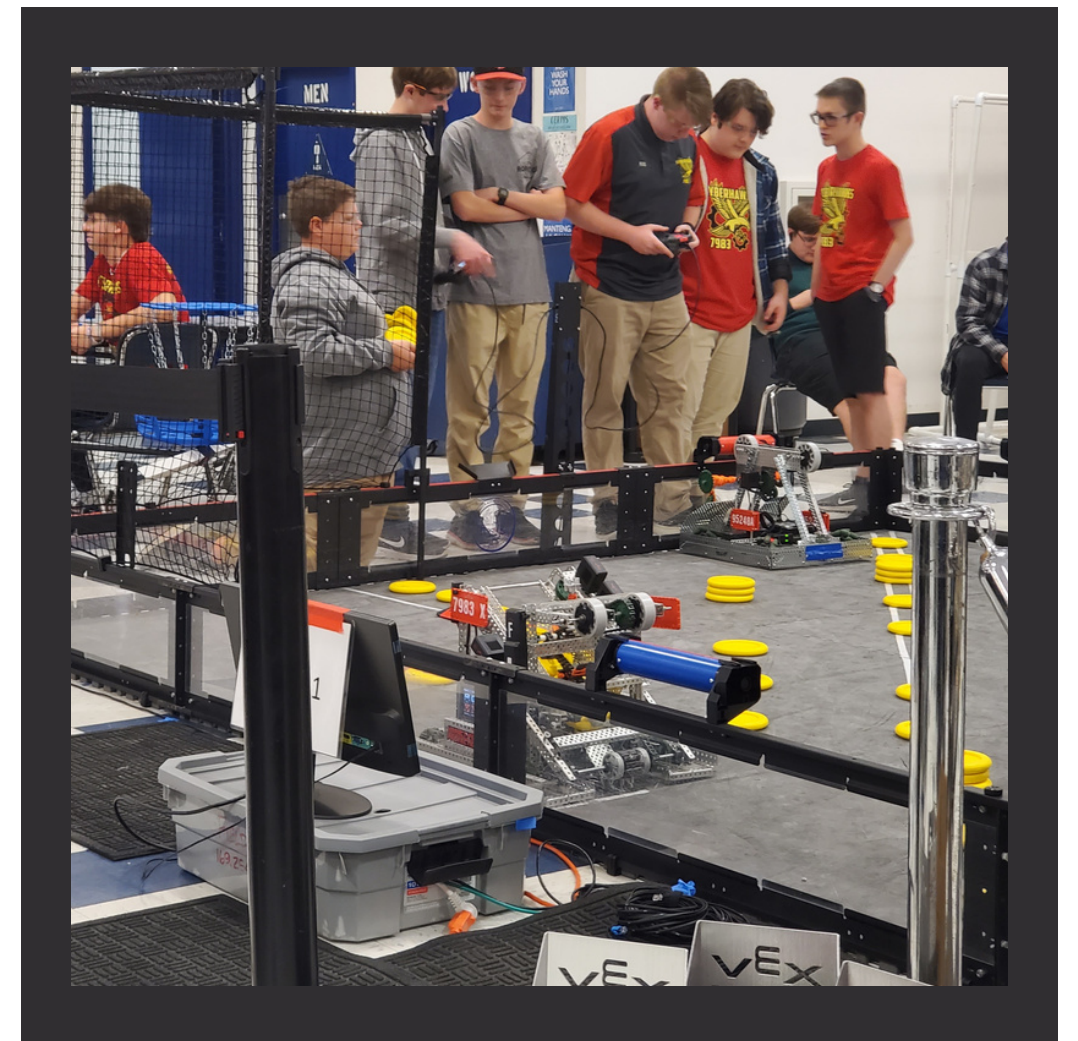

Building a Team

VRC is about teamwork! As a team you will come together for everything. You will work together to create your robot and build a strong bond with your teammates as you compete.

The Competition

Throughout the year you and your team will design and create a robot that triumphs above all others to achieve excellence in a VRC Tournament.

Community

While you compete you will have plenty of opportunities to go out into your community and volunteer such as in lower level competitions or at your school!
