

VEX POSTER CHALLENGE

7983M
Centennial High School
Ishaan Ghai

My name is Ishaan, and I have completed the Vex poster on behalf of Centennial's team 7983M in Bakersfield, California. In order to create the poster, I first had to find something to captivate the audience. I tried creating a multitude of different descriptions; I wanted to create a perfect one that fits everyone. After I had finished that I wanted to add a picture of the competition, so people could see what exactly they would be getting into. Finally, I formatted everything using Canva and added tiny details to make everything pop.
