

ONLINE CHALLENGE WRITE UP OF POSTER. (Braveen, Shay, Shaurya, Dani, Kyle, Max. Team HABS\_Dynamics. Team Number: 22903D. Location: Haberdashers' Boys School.)

For our Stem project, we decided to create a poster influencing people to join vex. In the poster we have discussed why people should join, the benefits and how fun the club is. We believe that this poster could really help the participants go up.

Our plan was simple. We chose a template Canva and just located all the places on where we should add images, writing and more! It was just the plan of any simple poster. The top of the poster would be our title, under it would be just something saying just join vex today and everyone is welcome. Then I thought of adding 3 different sections, what is VEX, Jobs in VEX and why join VEX. We added a vex related wallpaper with a nice contrast of colours and background, including some VEX pieces for the style.

This can really make a big change in the amount of people joining and participating in competitions around the world.
