

VEX

Why You Should Join VEX ROBOTICS?

VEX ROBOTICS helps you learn how to be a team player and collaborate with other people. Also VEX ROBOTICS teaches you how to never give up. It can help you learn life skills that will help you in the future.

What is VEX ROBOTICS?

VEX ROBOTICS is a fun program that challenges you and teaches you life skills. It can help you in your future. It also gives you good communication skills.

VEX ROBOTICS Tournaments?

Your Robot is put to the test, in a VEX Tournament, you compete with different teams in different schools. There are also prizes which are trophies, and you can also go to world championships.

What Do You Do In VEX ROBOTICS?

VEX ROBOTICS can help you learn to build, program, 3D print, and learn to be a team player. You have to build your robot and program it. Also you have to 3D print it as well. It also helps you become a team player.

ES

VEX ROBOTICS Builder

The builder has to build the robot and attach stuff to it to then use the robot to compete in tournaments. And most people usually choose the builder as the job.

VEX ROBOTICS Programmer

The programmer, also just another word for coder. Programs motors for parts that are meant to function. And they also program the controller for the robot to move.

VEX ROBOTICS Engineering Notebook

Engineering notebook, records what your team has been doing to their robot and keep updating it for it to be eventually reviewed by judges

VEX ROBOTICS Autodesk Inventor

Being an Autodesk inventor is not an easy job. What you're supposed to do is recreate your robot online. By downloading parts to build your robot.
