

We are the 71832E from Paraguay, this photograph means a lot to us, it was taken shortly after the second date of the national robotics league where all our teams came out winners. Many ask us about the success of the team, just look at the photograph and you will find a detail that always characterizes us, that detail allowed us to achieve amazing results in this season. A simple detail that allows us to improve, even when everything seems to be wrong, that detail is HAPPINESS
