

Hello!

This is the Lomita STEAM Magnet robotics team.

We have people who get along, work together, and solve problems that our robot might have or problems that might happen in the future.

Our team consists of six members.

We have Abby, Aubrey, Emeka, Gabe, Kensei, and me, Lillian.

We think that we have a chance to go to the world championship because we have a consistent team that always puts in their fullest effort.

This is what our team does during most of our practicesWe have a picture of our robotics team doing tasks around the STEAM lab.

Abby is handing Aubrey a piece whilst AUbrey is setting up a piece for the robot. I am putting down the controller. Emeka is holding the robot. Gabe is working in the Engineering Notebook. Finally, Kensei was coding the robot.
