

JOIN ROBOTICS!

Team #60533B

Los Angeles, CA

Daphny, Jay, Noah, Nathan

We are the Tigerbots, team Bolt. I made this poster by using Google Docs. I used Callout shapes to add words. I asked my team to come up with words that describe Robotics to us. We used our own photos to put next to our words. I added a different robot that I thought was cuter, but it wouldn't transfer over well so I was asked to pick another one. It's okay, the message is there. Robotics teaches us to be leaders!
