

**Join Vex!**  
**Think, build, action, test, iterate!**

By Dominique D + Eva P

Team 1102E

West Vancouver, BC, Canada

We made this poster to recruit future stem leaders to Vex. We have had so much fun competing, building, and designing our robot this year. It is a wonderful experience for a wide range of grades! Anyone is welcome to join. Our poster goes over our own discussed engineering design process! We hope you enjoy and join Vex now! Have loads of fun!
