

# How was the Poster Created?

## Design Process:

- To make this poster, we first sketched out a first draft of what we wanted my poster to look like.
- In this, we decided on the layout, the text and a simple idea of what picture we would like to use.
- After that, we decided to use PowerPoint to create our final draft, so we started off by creating a background with triangles. The white and red in the poster are supposed to represent the main colours of VEX.
- Then, we placed in the text boxes, added our information and then we added the logos.
- To conclude, we couldn't have a poster without pictures, so we added a few images that we have taken and with a few special touches, we were finished.
- Here is a comparison:

The title page and description of poster are below:

# Join the VEX Revolution

Title:

Join the Vex Revolution

Name:

Niketh, Ryan, Aaryan,  
Afraz, Yashay, Stavva

Team Number:

21549F

Location:

QE Boys School,  
Barnet, London

This poster is aimed at inspiring many people around us to join Vex Robotics. We hope that, just as it has done to us, will help many more people to develop essential skills of designing, building and having competitiveness. In particular, we aim to help more people to create great memories that they will cherish with the people around them. Vex Robotics gives people around the world this phenomenal opportunity and we want more people to seize it.

Thank You for Reading.
