

Teammates: Ayan, Akshita and Navya
 Team Name: Matter
 Team Number: 9555C
 Team Location: Apex North Carolina

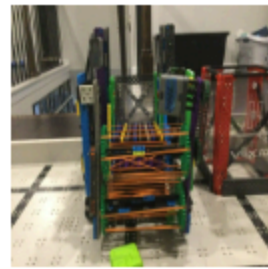

In the picture above it shows Navya holding the Excellence Award for the team

This version was the first version of our robot and was the least efficient.

The second version of our robot was efficient but not as efficient as our third version but won us Excellence Award.

The third version (current version) is the most efficient version and can score the most (won us Inspire Award).
