

Title: The last annotation

Participants: Miguel Soto, Ethan Rojas, Gustavo Pinilla, John Nieves, Luis Narváez

Team number: IQ1

Location : Barranquilla/Atlántico/Colombia

Description: While doing this poster, we remembered the tension and emotion presented in this competitions. Things such as last points make everyone feel anxious and frenetic.

The poster is about an annotation, the last one actually. We made a triball with words about VEX Over Under and all areas related with it.

We used words related with the emotions generated by this competitions, values that are needed to have excelent team, the rolls involved, important ubications in the field, materials and concepts.

At the end, we added the phrase “Searching solutions for a better world” because that’s what this events are made for. Every team trying to find the best solution to the problem presented in the competition.

Hope you enjoy it. :D
