- **Description how to create it**

We came up with the idea of using the representative colors of the alliances in the games, which are blue and red, using their typical red and blue stripes in some parts, we put the VEX logo and the “over under” challenge, of the current season, with the words “inspiring the future” and “imagine your world and design it”, which both encourage young people, children and university students to create new things with the use of VEX robotics provides.

- **Description of the poster**

At the top you can see the Vex logo with the challenge of the current season, with the background of an exit goal, which represents that to achieve the goals you have to work hard, the bottom part is black, with triballs around , of the 3 colors, blue, green and red.
