

My Desk

Adrian, Brianna, Cristopher, and Sarah

Art from Canva graphics and original art by Brianna

We designed our poster around the originality of computers and the desks they are on. You can tell a lot about a person from their desk, layout, and decorations. We have a lot of pictures from competitions, drawings of the game pieces, and drawings of our robot and we wanted to highlight all the cool and interesting pictures and drawings we have to show how fun VEXIq robotics can be. We've met so many interesting and kind people through robotics and we wanted to show how unique every person is.
