

Title of submission: WE GOT THE POWER!!

Names of students who participated in:

-Jarold Geordano

-Aylin Stephanie

-Itzallana Solis

-Nestor Daniel

-Isaac Jared

-Pedro Turrubiates

-Pablo Cortes

Team number:

TMAT 1

Location of team:

Universidad Tecnológica de Matamoros (UTM) – Matamoros, Tamaulipas.

Description:

Today, we not only stand as a team, but as a family united by our shared passion: robotics. Our achievements not only represent hours of dedication and hard work, but also the unbreakable spirit that defines who we are as a team.

As we look back on the journey we've traveled together, we remember the days of uncertainty and challenge, but we also recall the determination that keeps us focused on our goals. Each of us brought not only technical skills and knowledge, but also a dedication and commitment to excellence. In every mechanism built, in every line of code written, every piece designed, in every strategy discussed, we saw reflected our collective commitment to reach the unreachable.

We are grateful for the opportunity to be part of this incredible family we call TMAT. We are more than a team; we are a group of friends united by our passion for innovation and discovery.

In the days to come, we will face new challenges and obstacles. But with our determination and our spirit of teamwork and friendship, there is no limit to what we can achieve together. Let us move forward with courage, with humility, and with the certainty that together, we can go far! ❤️

Long live robotics, long live our team, and long live the spirit of innovation!
