Our Poster: Vex is the Best

Created by: Lila and Brooklyn

Team number: 29485B

Our location: East Edisto Middle School, Summerville SC

Our poster titled: VEX is the BEST shows why we love VEX and others should too. It is sectioned out into four. The sections show reasons to join vex and fun things about joining vex. It is colored red, orange, black, and grey with robot stickers and pictures of the team at our first competition set up to look like they are hanging on string. We hope our poster encourages others to join a VEX team. We made our poster by mapping out everything and writing down what we would put in each section. Then we sketched out our sections on the final board, taped down our photos, and started writing. To finish we traced over everything, colored the poster, and added robot stickers anywhere needed. We love robot stickers and share them at our VEX competition events.
