

Robotics Recruitment Poster

What is Robotics about?

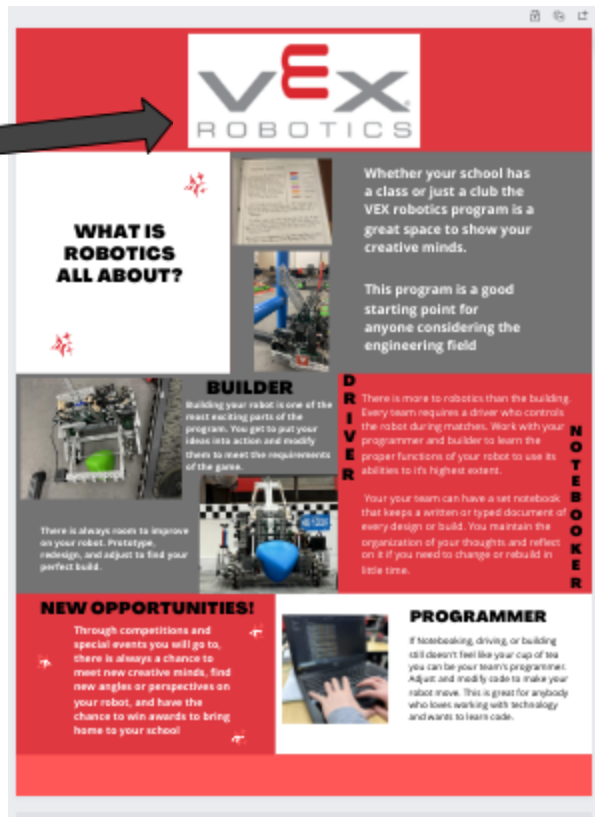

Allie Roush, Dylan Bender, Hannah Koogler, Ryan Howland,
Cooper Swope, Michael Koogler

Team: 45133F Foxtrot

Location- Hillsboro, Ohio

Vex Robotics Logo:
Gives a visual of the program for students to refer to when looking up more information

Roles:
Brief insight into the particulars and explains the responsibilities that come with each role

Description:
Gives an attractive appeal to the readers and hooks them in to keeping reading. We used various rules of graphic design to draw the reader's attention to keep reading.

Roles 2:
Refers to "Roles" to understand the contents of these sections. Gives students the headings to look at specific areas that interest them.

45133F Robotics Recruitment Poster gives insight into the different roles and opportunities available when joining a Vex robotics program. Using a Canva poster layout for the base of the design. Then we added boxes to separate key points and information from each other. We used the colors of VEX on our poster and the logo. The poster explains the different aspects that might relate to someone interested in the program and what role they can explore. We wanted to point out the fact that the robotics program is not just about a robot. The team focused on making the poster appealing to their viewers, we wanted to include lots of information and also be visually appealing. We also used photos of our robot, program, and notebook from this year to have visual appeal to readers. We wanted future robotics members to see the ways they can engage in hands-on robotics projects.
