

Try Vex Robotics today!

## EXPERIENCE THE FUTURE OF ENGINEERING AND ROBOTICS!

Vex Robotics is an advanced robotics program for students of all ages. VEXV5 is a more complicated robotics program with a lot of opportunities to join, have fun, and compete. There is Vex virtual skills, a coding platform with both block code and JavaScript. On this platform, you can program your way through the yearly competition. There is also building and notebook. This and leads to VEX competitions, which offer offer a lot of rewards and progression to world champion. VEXIQ is a robotics program made so that younger people can get a chance in robotics. There will be something for everyone.
